

# Frosh Humanities May Shift To Offer Foreign Language

Foreign language may prove to be the most popular freshman humanity in another year or so according to a survey made last spring. This course would essentially include the regular curriculum of the present humanities except that classes would be conducted entirely in a foreign tongue.

With many Institute graduates traveling and working abroad, an ability to converse in foreign languages has proven to be a necessity. For this reason, concentrated study of a language, though it may have been partially mastered in high school, may in the future be an elective for freshmen. It is hoped that with this course the student would obtain a good mastery of one language.

Students have been quick to realize the advantage of this offer as was shown by the results of a survey taken by the School of Humanities last May. Questionnaires were sent to 657 members of the Class of 1955. Of the 429 who replied, two-hundred and nine stated that they would have

## Wellesley Dramatists Present Old Plays

William H. Bohnert, '54, will play the role of Colonel Howard in Anna Ritchie's play "Fashion," which will be performed at the Wellesley College Theater on November 7 and 8. Written in the nineteenth century, the play will be presented by Barnswallows, the Wellesley dramatic organization.

"Fashion" is a comedy of American morals and manners, and will be the first of a series of experimental plays under the direction of Norman Ashton. It will recreate as exactly as possible the acting and stage style of 1845, including the obvious asides, the use of an epilogue, the sing stage employing backdrops rather than a setting, simulated footlights and handbills.

elected the program had it been available when they entered the Institute. However, only eighty of these had adequate high school language preparation to be eligible for the course.

Although the plan is not definite, it is quite probable that the Class of 1958 will be given this language instruction elective.

## Cambridge Official Deplores Jaywalking In Harvard Square

An amendment to jaywalking regulations in the Harvard Square area is now under consideration by the Traffic Board of the City of Cambridge, according to a report in the Boston Daily Herald. Recently, a complaint was made against Harvard students by Cambridge City Councilman Edward J. Sullivan.

Mr. Sullivan said that the Harvard students were crossing Massachusetts Avenue, particularly at night, "reading books and thinking that the street was a part of the Yard." He said his complaint also covered riders on bicycles without lights and suggested that City Manager John J. Curry assign policemen to conduct a course in street-crossing at Harvard and Radcliffe.

### INSTCOMM AGENDA

Institute Committee will meet tomorrow at 5 p.m. in Litchfield Lounge. Listed on the agenda are the following:

- (1) Report by the Committee appointed to investigate the feasibility of an All-Tech Dance.
- (2) Approval of the Spring Social Calendar.
- (3) Removal of the "Ways and means of financing leadership conferences" bill from the table.

## '56 Holds Elections; Freshman Leaders Form Class Council

The Secretariat of the Student Government announced today the completion of the Freshman Section elections. The elections were conducted over a ten day period, and have been supervised by members of the Student Government. 33 Freshman leaders and alternates have been chosen, the group comprising the body of the Freshman Council. The Council's first meeting was held last Friday, in the Tyler Lounge of Walker Memorial.

The following is a list of the newly elected section leaders. Alternates are listed after each section leader.

1. John M. Watts—Harry Scherzer.
2. Sumner Rosenberg—Paul Berenson.
3. Bernard Beskind—Robert MacDonald.
4. Jon Hathaway—David Braslau.
5. Richard Duval
6. Edward Johnson—David Kaplan.
7. Polo T. Anastasiadis—Stephen N. Cohen.
8. Nathan L. Hazen—Robert McKelvey.
9. Robert Porter—James R. Loewenberg.
10. Rodney Botero—Michael Turin.
11. Warren Briggs—Harry Imus.
12. Robert Brigham—Herbert Heibig.
13. Robert K. Paschall—Thomas Folkes.
14. Robert Carlson—Edward Copps.
15. Jesse Rochstein—Curtis Flory.
16. Michael Ginsburg—David Mitchell.
17. Bernard Haas—Stephen Conviser.
18. Benjamin Harrison—Ronald Smith.
19. John Saloma—Ronald Hillebrand.
20. David Solow—David Kleinman.
21. Edward Pendergast—Arthur Frank.
22. Fred E. Culick—William Marks.
23. Oliver Johns—Robert Goldman.
24. Robert Sawyer—James Watt.
25. William Layson—Richard Johnson.
26. Bradlee Terry—Robert Borghesani.
27. David McBride—Simon Moss.
28. George Mayer—Trevor Smith.
29. Julio Arroyo—Peter Schermerhorn.
30. Bion Francis—Robert Pollard.
31. Donald Weiner—Garry Quinn.
32. Jay Ball—Harris Weinstein.

## Class Of '55 Defeats '56 But Frosh Win Moral Victory In Glove Fight

The 52nd annual Field Day is over and the Class of '55 are the victors. "Freshmen, put those ties back on. They are part of you until Christmas."

The final tallies showed the Sophomores taking football, the relay, and the glove fight, giving them a total of 12 points, while the freshmen, with their victories in swimming, crew, and tug-of-war tallied only 9 points. All the events were hard fought and produced real sportsmanship. The spirit of the day and the turnout of freshmen at the glove fight showed that the Class of '56 is not as spiritless as was previously supposed.

## Debaters Downed By Norfolk Prison Team Over FEPC

In a debate over the question "Resolved: that the Congress of the United States should enact a compulsory Fair Employment Practices law", the Norfolk Prison Colony duo outargued the Institute Debating Team on Sunday, November 2. The Institute team, composed of Rudolph E. Kalman, '54 and Robert F. Barnes '54; and accompanied by Richard Markus, a member of the faculty, took the negative side. The winners for Norfolk were Thomas Richards and Francis Mulligan.

This is the twelfth straight victory  
(Continued on Page 4)

### EXPERIMENTAL FILM

"Dreams That Money Can Buy" is the title of an experimental movie to be shown on Thursday, November 6 by Lecture Series Committee. This technicolor film won the prize for the best contribution to the progress of cinematography at a Biennial Film Festival in 1947. This film will be shown in room 1-190 at 5:00, 7:30 and 9:30 p.m.

### Crew

Flashing over the murky waters of the Charles, the freshmen started the Field Day with a decisive victory over the outclassed, but hard-fighting Sophomores. The frosh, who incidentally had never raced as a group before, were not given much of a chance against the relatively experienced Sophomores some of whom had raced in last year's gala event. However, after the first ten strokes it was clear that the forecasters had been wrong as the determined '56 shot ahead to gain an early lead which they never relinquished. At the halfway mark (the race started at the Crew House and ended at Harvard Bridge), the hard-rowing Freshmen had built up a lead of about 2½ lengths and were still adding to that lead as they came into the home stretch. Then with a sizeable lead of three lengths the frosh rowers swept across the finish line to the cheers of the freshmen and the smothered groans of the dejected sophomores.

### Swimming

In the second event of the afternoon  
(Continued on Page 3)

## Fall Elections Take Place Thursday

Fall elections will be held on Thursday, November 6 for Senior, Junior and Sophomore offices.

Ten elected Seniors will represent their 769 classmates on the Senior Week Committee. The Juniors are scheduled to elect one member of their class to the chairmanship of the Senior Ring Committee, and the Junior Prom Committee will gain five new Sophomores.

The ten Seniors to be elected will complete the 17-man committee, five of whom are ex-officio officers from the Senior Class Executive Committee, one a last year's Junior member, and one to be picked from the Junior Class by the Committee.

All students are reminded that it is necessary to show their registration card when voting.

### CANDIDATES

For Senior Week Committee:

1st row (left to right): Ira Eglowstein, George Fuld, Richard J. Griesse, Robert I. Gross, Tollyn J. Twitchell, Jacob Pinkovitz.

2nd row (left to right): George B. Hegeman, John R. O'Donnell, W. James Mast, Russell C. Kidder, Richard Hilton, Joan M. Fleckenstein.

For Junior Prom Committee:

3rd row (left to right): Reginald W. Griffith, Kenneth Hoben, Dell Lanier, Donald Steig, Robert Morgan, Harry Schreiber.

4th row (left to right): Robert W. Temple, James W. Storey, Jr.

For Senior Ring Committee:

4th row (3rd from left): Wallace P. Boquist, Martin Wohl, Wilbur P. Fiske.

## EXHIBITIONS

Photographs by Ansel Adams will be on display in the New Gallery of the Charles Hayden Memorial Library from 9:00 a.m.-5:00 p.m. through November 5.

Photographic Salon Prints by Frank E. Fuller of Bloomington, Illinois, will be shown in the Photographic Service Gallery, Basement of Building 11, through November 17.

Colonial America is the subject of an exhibit in the corridor of Building 14, through November 8.

## CALENDAR OF EVENTS

The Calendar of Events will not be published next week because of the holiday on November 11. Material for the Calendar of November 19-25 is due in the Office of the Editor, Room 7-204, not later than noon on Thursday, November 13.

## fraternity findings

By Henry K. Hebel

After struggling against each other all day, the frosh and the Sophs began to cooperate and combined really to start the social ball rolling at several of the fraternities last Saturday.

Competition with the Junior Prom informal was no problem to the Phi Kappa Sigmas over on Beacon St. The members went all out on decorations for their Skull House Skuffle. To get into the house the jovial and boisterous crowd half crawled and half walked up a dark and narrow maze which was well rigged with many weird sound effects. The house was packed with people clamoring for prodigious amounts of beer and apple cider. Judged by the amount of noise and singing the party was a huge success.

Down the street, the Sigma Phi Epsilons judged the success of their Halloween Party by the number of white spindles broken on their stair railing. Bud Sepp, the social chairman, proudly reported a new Pegis Club record as eight spindles tumbled down the steps on Saturday. A thief managed to get away with more than his share of beer when he skillfully avoided the witches and goblins and walked out the door with a quarter of a keg.

The Phi Beta Epsilons invited the Dekes over to another beer brawl called the Klondike Saloon. The music of Bud Savage and the bar room decorations created an atmosphere in

which anyone could have a good time. The Phi Gams annual Cowboy Party should be coming up next Saturday. To be in good shape for it you had better forget about the books for a week and rest up. Believe me, you'll need it.

## through the mail

## THE RUNKLE LINE

To the Editor of THE TECH:

I should like, in all humility, to offer a brief historical note on the Runkle line and its long career of service as M.I.T.'s most popular unrecognized activity. It was started three years ago by one J. Philip Benkard, of blessed memory, as a hookup between two rooms of virtually innumerable components, the twelve-pair cable being entirely hidden from view along its passage from floor to floor and across a hall. The contributing rooms broadcast as WCBQ, Montreal, Canada. A favorite trick in the pioneering days was, as the station break was announced, someone in the listening room would whip out a blank pistol and fire at the loud speaker. The announcer, hearing the shot over an open Intercom, would give a loud shriek, and another voice would announce that, due to assassination of the announcer, the program could not continue. This never failed to amuse Smith girls, maiden aunts, FCC inspectors, and other impressionable young people. The public-spirited proprietors later allowed other people to share the music, and initiated such special features

as E45 quiz reviews. By the middle of last year the membership was 40 rooms, the only equipment required being an AC radio set or better. Control of the line has passed from Runkle, but the tradition is being carried on in a noble manner in keeping with the selfless aims of its founders.

NATHAN SIVIN, '52

October 21, 1952

To the Editor of THE TECH:

It is not often that I read the column, "Beaver Barks", but I did happen to glance at it today, and I believe that its author is fighting for the wrong goal.

In the school which I attended before coming to MIT, there never was any such thing as "class spirit", and so I came to MIT unprepared to cope with this monster. I may safely say, however, that I have resisted its clutches, and I now pride myself on having nothing to do with class spirit. I cannot understand the reasons for which such spirit is fostered, unless it is a part of what I regard as the deplorable American tendency to concentrate in clubs and organizations the avocational tendencies of the individual. I do not deprecate the subjective motives which make people get together in groups, nor do I disregard the oftentimes valuable services rendered by homogeneous groups to the rest of society. I do not wish to fail to take into account, either, the importance of "esprit de corps" in any joint undertaking. What I do object to is the behavior pattern which has been studied in "Babbitt", among other places, that of joining for its own sake and of crusading for no other purpose than that of proving one's own club the more valiant.

When men's energies are concentrated in group efforts, I think that it should be for a purpose beyond that of the concentration itself. Thus I do not think that the patriots who assemble to proclaim the glory of their country do any service to their country, or what is more important, to the world. Patriotism, to me, should mean pride in the effort that the citizens of one's country are making for the well-being of the whole world.

Therefore, I can agree with the author of the column: I have referred to when he commends extra-curricular activities to those students who have so far disdained them. I agree that working with other students on The Tech, or in the Musical Clubs, or in any other group at Technology, concentrating on certain projects, that are to benefit everyone, is a valuable part of one's education. I fail to see any connection, however, between the activities and the artificial rivalry between sophs and frosh—not restricted to MIT, by the way. Why try to unite large numbers of students who have no common denominator save the year in which they came to Tech? Why is class spirit necessary, in what does it promote the individual's maturing process; how does it benefit the rest of the MIT family?

Within the framework of the whole country or of the whole world, we should not proclaim "MIT" from the roof-tops, but we should endeavor to serve humanity and ourselves by working together at bringing whatever benefits science may have to offer to people everywhere. Within the framework of MIT, we should not proclaim class numbers from the roof-tops, but we should unite in our religious, service, professional, or cultural activities to benefit ourselves and the rest of the people in the Tech family.

### Engineer Soccermen Lose Close Decision To Connecticut 2-0

The Beaver soccer team dropped a 2-0 decision to the University of Connecticut last Saturday, in a game played at Storrs, Conn. It was the fourth loss for the Engineers, as against one victory and one tie.

The game started slowly, with neither team showing much action in the first period. The second period started slowly, but midway through the period, Tuttle, the Uconn's star, put the ball into the nets for this first score of the game. The second half was much better played than the first, with both teams showing a lot of fight. Tuttle scored his second goal in the third period to put Connecticut ahead, 2-0. The Engineers fought vainly during the final period to close the gap, but the Uconns drove off all attacks on their goal, and the game ended with Tech on the short end of a 2-0 score.

The Freshman soccer squad also lost its game with Connecticut 5-2.

This afternoon, the soccer team will play Boston University at 2 p.m. on Nickerson Field in Boston.

### Tech Weightlifting Starts First Season As A Varsity Sport

The Weightlifting team will commence its season with a meeting on Wednesday, November 5 at 5:00 p.m. in the Barbour Field House (adjacent to the swimming pool). Due to the winning of the New England Intercollegiate Championships last spring, the Athletic Association has recognized weightlifting as a varsity sport—the first of its kind in the United States. Coach Ben Agusta anticipates a winning season again this year because of such standout lifters as Mike Maresca, Burt Blum, Eric Thompson, Thomas Alexander, Ray Roberts, Eugene Foster, and Art Butz; and because of the many promising new lifters.

Coach Agusta is hopeful that he will have a "new crop" of lifters this year. He is especially keen on lifters in the bantamweight and heavyweight classes since there is a shortage of men in these classes. No experience is needed—all Ben asks is the material with which to work and he'll do the rest.

At present there have been meets scheduled with Springfield College, Univ. of Maryland, Univ. of Calif., City College of N. Y., Dickinson College, and a few other hopefuls such as "Sargent" (ha! ha!).

Everything taken into considera-

### Field Day

(Continued from Page 1)

the freshmen again came through with a victory as they won by an unexpected total of 13-8 in swimming. This placed the total score for the first two events of the afternoon at '56—6, '55—0.

The first event, a 150 yard medley relay, was won for the frosh by the team of Peter Bogan, Richard Cryer and Quinn Solem. Solem, swimming the anchor freestyle, came from behind and beat Thomas Hamilton to the wall by inches. Third place was also taken by the Sophomores.

The last and deciding event was featured by the sparkling stretch sprinting of Robert Jantzen who closed a two yard gap to beat the Sophomore number one team by a single foot. The winning freshman team consisted of Joseph Hamlet, Arthur Albert, David Maguire and Jantzen. The number two freshman team took third place. The winning time for this event was one minute forty six and a half seconds.

### Football

The Sophomores outclassed the Frosh Football team through most of the game, winning handily, 13-0.

tion, the weightlifting team should have a "bang-up" season. If you are interested in coming out for the team, please attend the meeting on Wednesday or contact Ben Agusta, Rm. 3-001.

thereby gaining four points in the Field Day competition.

The game was a see-saw battle through most of the first half, with the Sophomores often moving the ball into freshman territory, but never really threatening. In their one real threat, a fifty yard touchdown pass from Kraner to Cole was nullified by a penalty. A few minutes before the half ended, '55 took over on the freshman 45, and drove to the 8 on a Kraner-to-Rush pass and a run by Kraner. A few plays later Rush took a pass in the end zone for the score. Kraner converted, and the half ended with the Sophomores ahead, 13-0.

The second half was much the same as the first, with neither team really threatening. Late in the third period, the frosh, led by Roberts, drove to the Soph 33, but there the drive petered out. Midway in the final period, a '56 pass was intercepted by Thelman, who dashed 20 yards for the second Sophomore score. The conversion was blocked by Mauer-man, and the game ended with the Sophomores ahead, 13-0.

### Tug-of-War

The Tug-of-War this year was more exciting than usual. The frosh, considered to be outclassed, appeared to be almost convinced of this, when, just as the first pull was to go to the Sophomores the freshmen led by big Art Hansen, came to life and with a tremendous burst of energy, pulled '55 over the chalk line.

In the second pull, after both sides had rested, the Sophomores again started off strong, but this time they increased their lead instead of losing it, and in spite of all efforts, '56 was unable to hold the revamped Sophomore line and lost the second pull.

In the third and final pull, neither team got off to a fast start and both teams heaved and strained at the hemp for a full six minutes, until with one mighty pull, the frosh yanked the tired Sophomore team across the chalk line for 3 more points.

### Relay Race

Sophomore experience, combined with the accidental dropping of the baton by one of the Freshman racers, gave the Class of '55 a victory in the Field Day Relay Race.

Twelve men from each of the two

teams ran two hundred and twenty yards each for a total of a mile and a half. The winning time was 4:59.9. This was more than ten seconds over the record set in 1937, but Coach Hedlund thought it was a very fast race nevertheless. He also felt that had the freshman team not dropped the baton, the race would have been very close.

### Glove Fight

With the score standing nine to seven in favor of the freshmen and eleven points being necessary to win field day, both sides knew that the last event, the glove fight, would decide the outcome.

The freshmen outnumbered the upperclassmen by about 3-1 but a little strategy turned the tide in favor of the latter. This cunning took the form of giving all the gloves to several innocent looking sophomores and then having them stay out of the line of scuffle as much as possible. This worked with great success as the freshmen declothed soph after soph without finding any loot.

With about five minutes remaining the ruse was discovered and two such treasured glove carriers were captured. But the upperclassmen had by this time apprehended too many wandering freshmen so the final score stood at 29 red gloves in the frosh barrel while the victors had amassed 34 white gloves.

At the close of the battle many sophomores were seen trying to hide nudity behind whatever scraps of clothes were available. The sophomores walked away in triumph, the frosh in dejection but satisfied with moral victory and the dates with a broadened education.

## Tau Beta Pi Prexy Visits Convention

Paul C. Van Alstyne, '52, president of the Technology chapter of Tau Beta Pi Association, attended the 47th national convention of Tau Beta Pi, held at the University of Oklahoma on October 1, 2, and 3. Undergraduate students attended from all 90 chapters.

The convention authorized the inauguration of a program of cooperative fellowships for graduate study in engineering which will consist of cash awards to promising and needy students. The first award under this plan will be given for the 1953-54 school year. A proposal to admit women to membership in the association was defeated, although chapters are empowered to award the Women's Badge to outstanding women engineering students.

## Debating Club

(Continued from Page 1)

for the Prison team, which last lost a debate two years ago, to the Institute, and who have defeated such

outstanding opponents as Oxford University.

On Wednesday, November 5, our debating team will again consider the above issue, this time against Phillips Andover Academy.

## NOSE, THROAT,

and Accessory Organs not Adversely  
Affected by Smoking Chesterfields

FIRST SUCH REPORT EVER PUBLISHED  
ABOUT ANY CIGARETTE

A responsible consulting organization has reported the results of a continuing study by a competent medical specialist and his staff on the effects of smoking Chesterfield cigarettes.

A group of people from various walks of life was organized to smoke only Chesterfields. For six months this group of men and women smoked their normal amount of Chesterfields—10 to 40 a day. 45% of the group have smoked Chesterfields continually from one to thirty years for an average of 10 years each.

At the beginning and at the end of the six-months period each smoker was given a thorough

examination, including X-ray pictures, by the medical specialist and his assistants. The examination covered the sinuses as well as the nose, ears and throat.

The medical specialist, after a thorough examination of every member of the group, stated: "It is my opinion that the ears, nose, throat and accessory organs of all participating subjects examined by me were not adversely affected in the six-months period by smoking the cigarettes provided."
